General safety, industry specific
- **Return to Work Programs**  
Transitional job duties, workers compensation fraud
- **OSHA Compliance**  
Audits and customizable programs
- **Regulatory Links**  
Compliance, government resources

### Online Risk Control Expertise

Help prevent accidents with the latest safety research, OSHA compliance tools, industry analyses, and training materials. Use SafetyNet to identify where accidents and injuries are likely to happen and build programs to reduce those risks.

Find and download hundreds of published articles, reports, and technical references by title, topic, industry, or type of loss.

- Industry-based safety analyses of key risks and exposures
- Disaster preparedness, business continuity, and crisis management information
- Articles from the Liberty Mutual Research Institute for Safety
- Liberty Mutual's Workplace Safety Index, a widely used metric of workplace injury

### Comprehensive Safety Training

SafetyNet offers dozens of instructor-led webinars and in-person classroom sessions. Beginner, intermediate, and advanced classes are available on everything from OSHA compliance to safe driving techniques. One hundred self-directed online training courses are also available at a discounted rate through our partnership with Summit Training Source.

### Work with Our Risk Control Consultants

Our risk control consultants help you find safety materials, answer questions about specific research, or review the potential impact of your loss mitigation efforts. They can also help you develop and implement safety solutions, online or on-site.
