## Flexible business solutions for license and permit obligations

Insurance adjuster or agent/broker bonds guarantee insurance agents will comply with the laws regulating the insurance industry and that they will appropriately and accurately account for, and remit, funds for any premium that has been collected, products that have been sold, and taxes that may be due. Some states, cities, or municipalities require insurance agents to obtain a bond.

Liberty Mutual Surety has extensive knowledge of, and experience with, underwriting surety obligations for the many classes of license and permit bonds, including insurance adjuster bonds. We work closely with independent agents and brokers to meet their customers' particular business needs.

Common types of bonds for people that work in the insurance industry include:

**Insurance adjuster bonds** – The principal is an employee of an insurance company, or an individual that contracts with an insurance company to adjust insurance claims.

**Surplus lines agent and broker bonds** – The principal is an individual who sells surplus lines insurance and acts as an agent or broker for an insurance company.
